

TABLE OF CONTENTS

Inclusive Instructional Design and UDL Around the World	1
<i>Susie Gronseth, University of Houston, United States; Elizabeth Dalton, University of Rhode Island, United States; Radhike Khanna, Om Creations Trust and Shraddha Charitable Trust, India; Boris Alvarez, Irma Iglesias & Paola Vergara, Fellow Group, Chile; Jeanne Carey Ingle & Heather Pacheco-Guffrey, Bridgewater State University, United States; Debra Bauder & Katherine Cooper, University of Louisville, United States; Cindy Anderson, Roosevelt University, United States; Kevin Anderson, University of Michigan, United States; Vivian Intatano, Raja Soliman Science & Technology High School, Philippines; Peggy Semingson & Kathryn Pole, University of Texas-Arlington, United States; Kerry Armstrong, Brenda Boreham & Terri Mack, Strong Nations, Canada; Lisa Harris, Winthrop University, United States; Dave Edyburn, University of Central Florida, United States; Janet Arndt, Gordon College, United States; Britt Tatman Ferguson, National University, United States; Nili Luo, Southwestern College, United States; Lindsay Yearta, Winthrop University, United States</i>	
MOOC as a way to raise inclusion awareness in society: Portuguese case study	6
<i>Manuela Francisco, Luís Filipe, Rita Cadima, Célia Sousa, Catarina Mangas, Graça Seco, Sandra Alves, Renato Coelho & Joana Sousa, Polytechnic Institute of Leiria, Portugal</i>	
Practicing and prospective teachers' pedagogical reasoning about using technology in their educational practice: Part 1	13
<i>Joke Voogt, University of Amsterdam/ Windesheim University of Applied Sciences, Netherlands; Michael Phillips, Monash University, Australia; Ottavia Trevisan & Marina de Rossi, University of Padova, Italy; Anneke Smits, Henk La Roi & Roland Bruijn, Windesheim University of Applied Sciences, Netherlands; Judi Harris & Mark Hofer, William & Mary School of Education, United States; Petra Fisser, Netherlands Institute for Curriculum Development, Netherlands</i>	
UDL for Inclusive Science Education	17
<i>Heather Pacheco-Guffrey & Jeanne Ingle, Bridgewater State University, United States</i>	
The Effectiveness of On-line Practicum Courses in Medical Education	20
<i>Asmaa Radwan, Indiana University of Pennsylvania, United States</i>	
Near peer video-based observations: Using student teaching videos to train aspiring school	24
<i>W. Sean Kearney & James Jurica, Texas A&M University San Antonio, United States</i>	
Trends in Rural Area School Librarian Candidates' Technology Acceptance and Adoption	29
<i>Haihong Hu, University of Central Arkansas, United States</i>	

"It was just doing what you know about and move on, you know, just to survive". A beginning elementary teacher's story of using technology in the classroom during her first two years.	35
<i>Ya-Huei Lu, East Carolina University, United States</i>	
A program for success: A reflective structure to enrich preschool children's mathematical reasoning	40
<i>Kelley Buchheister, University of Nebraska-Lincoln, United States</i>	
The Effects of Gender and Literacy in the Development of Computational Thinking Skills in 6th Grade Students	49
<i>Gerald Ardito, Pace University, United States; Betul Czerkawski, University of Arizona South, United States</i>	
Bricklayer: Mathematics through Art and Coding	52
<i>Michelle Friend, Paula Jakopovic, Betty Love & Victor Winter, University of Nebraska at Omaha, United States</i>	
Changing the Game: Teaching Elementary Mathematics Through Coding	55
<i>Paula Jakopovic, Michelle Friend, Betty Love & Victor Winter, University of Nebraska at Omaha, United States</i>	
Using TPACK to Teach #FutureTeachers in an Undergraduate Integrating Technology with Teaching Course	61
<i>Julia Parra, New Mexico State University, United States</i>	
Teaching through the eyes of a robot Using Robotic Telepresence to Facilitate Early Field Experiences for Pre-Service Teachers	65
<i>Shawn Daley, Michigan State University, United States; Stephanie Murphy, Concordia University, United States</i>	
TOPRACE Model: A Practice of Online Instruction	71
<i>John Ronghua Ouyang, University of North Florida, United States</i>	
Exploring messaging in STEM YouTube Videos	76
<i>Laurie O. Campbell, Tara Gibson, Jason Pollack & Stacy Watkins, University of Central Florida, United States</i>	
Social Media Closing the Distance in Online Education	81
<i>Lee Heller, Nova Southeastern University, United States</i>	
Justin's Path to Learning Fractions Through Coding	92
<i>Lorraine Jacques, Louisiana Tech University, United States</i>	

#SocialMediaEd: Perspectives on Teaching about and with Social Media in Higher Education	97
<i>Christine Greenhow, Michigan State University, United States; Benjamin Gleason, Iowa State University, United States; Daniel Krutka, University of North Texas, United States; Tonia Dousay, University of Idaho, United States; Jeff Carpenter, Elon University, United States</i>	
Rocket Roundup	101
<i>Scott McKay, Mark Geary, Jim Maloney, Jennifer Nash & Jacob Geary, Dakota State University, United States</i>	
What Story Does Your Online Presence Tell? Helping Teacher Candidates Understand the Impact of Their Digital Footprint	108
<i>Ricky Mullins, Eastern Kentucky University, United States; David Hicks, Virginia Tech, United States; Todd Ogle, Virginia Tech, United States</i>	
Dr. Skateboard's Action Science and the Masters of Physics	112
<i>William Robertson, Teacher Education Department, College of Education, the University of Texas at El Paso, United States</i>	
Preservice teachers' decisions on the use of ICTs to teach science during teaching practice	120
<i>Thuthukile Jita, University of the Free State, South Africa</i>	
Education Students' Definitions of Creativity in Education: Developing Common Ground to Embrace Shifting Educational Contexts	128
<i>Mia Kim Williams & Letha Mellman, University of Northern Colorado, United States</i>	
Recording the World: The Potential of Using Wearable Technologies to Teach Social Studies	134
<i>Ricky Mullins, Eastern Kentucky University, United States; Cassidy Hall, University of Idaho, United States; Judith Painter, Salem City Public Schools, Virginia, United States; Melinda Davis, University of Idaho, United States; Jaap Vos, University of Idaho at Boise, United States</i>	
Understanding Adolescent Writing on Social Media: A Literature Review	138
<i>Sarah Galvin & Christine Greenhow, Michigan State University, United States</i>	
Gamified Mars Learning Lab	147
<i>Mark Geary & Jacob Geary, Dakota State University, United States</i>	
Faculty and students' perspective towards Active Learning Classroom	151
<i>Ali Rezaei, California State University, United States; Francine Vasilomanolakis, CSULB, United States</i>	

Digital Literacy and Perceptions of Truth: Confusion and Confirmation Bias	157
<i>Kevin Krahenbuhl, Middle Tennessee State University, United States</i>	
Preservice Science Teacher Preparation Using Virtual Reality	162
<i>Richard Lamb & Elisabeth Etopio, University at Buffalo, United States</i>	
Online Tutoring: Exploring Pre-Service Teachers to Serve Rural/Native Area Students	168
<i>Hsing-Wen Hu, Grant Sasse & Katie Walker, University of Alaska Anchorage, United States</i>	
Stop, Collaborate, and Listen: Facilitating Community, Connection, and Communication in the Online Classroom	173
<i>Susie Gronseth & Jingyuan Fu, University of Houston, United States</i>	
Faculty Resistance to Technology Integration	175
<i>Ileana Torres & Jessica Evans, TCSPP, United States; Michael Schneider, TSCPP, United States</i>	
Teaching How to Visualize the Invisible: Using Virtual Reality to Expose the Microscopic World of Chemistry	178
<i>Mia Kim Williams & Dalal Alrmuny, University of Northern Colorado, United States</i>	
Technology-facilitated Formative Assessment	182
<i>Natalie Johnson-Leslie, Arkansas State University, United States; Lan Li, Bowling Green State University, United States; Valentina Grion, University of Padova, Italy; Lara Kassab, San Jose State University, United States</i>	
Reciprocal Teaching and Padlet: Writing about Reading with Slovakian Students Learning English	189
<i>Victoria Seeger, Northwest Missouri State University, United States; Sara Worsfold, Currently working at a school in Cambodia., United States</i>	
Articulating and Applying Content using Student-Identified Video Clips	191
<i>Paula Christensen, Northwestern State University of Louisiana, United States</i>	
Makerspace Professional Development: A Self-determination Theory Analysis	197
<i>Michael L Schad & Monty Jones, Virginia Commonwealth University, United States</i>	
Technology Binds or Blinds? - Social Networks through a Pedagogical Lens	205
<i>Tami Seifert, Kibbutzim College of Education, Technology, and Art, Israel</i>	

The Effectiveness of a Game about Learning Disabilities	211
<i>Carol Redfield, St. Mary's University, United States; Crystal Redfield, John Jay Science and Engineering Academy, United States</i>	
Practice and policy in K-12 online learning in New Zealand: What lessons are transferrable?	238
<i>Keryn Pratt, University of Otago, New Zealand; Sandra Williamson-Leadley, University of Canterbury, New Zealand</i>	
Boosting Communication: Using Point of View (POV) Video for Students with Disabilities as a Powerful Communication Piece with Parents	241
<i>Cassidy Hall, University of Idaho Doceo Center, United States; Ricky Mullins, Eastern Kentucky University, United States; Aleksandra Hollingshead, University of Idaho, United States; Tonia Dousay, University of Idaho Doceo Center, United States</i>	
Using UDL-related methods in education, teacher training, and job-development for young women with developmental disabilities in India	245
<i>Susie Gronseth, University of Houston, United States; Elizabeth Dalton, Rhode island, United States; Boris Alvarez, Irma Iglesias & Paola Vergara, Fellow Group, Chile; Jeanne Carey Ingle & Heather Pacheco-Guffrey, Bridgewater State University, United States; Debra Bauder & Katherine Cooper, University of Louisville, United States; Cindy Anderson, Roosevelt University, United States; Kevin Anderson, University of Michigan, United States; Vivian Intatano, Raja Soliman Science & Technology High School, Philippines; Peggy Semingson & Kathryn Pole, University of Texas-Arlington, United States; Kerry Armstrong, Brenda Boreham & Terri Mack, Strong Nations, Canada; Lisa Harris, Winthrop University, United States; Dave Edyburn, University of Central Florida, United States; Janet Arndt, Gordon College, United States; Britt Tatman Ferguson, National University, United States; Nili Luo, Southwestern College, United States; Lindsay Yearta, Winthrop University, United States</i>	
Language Teachers' Content-Specific Technology Integration Reflection through the Video-Embedded Reflective Inquiry Model	250
<i>Ai-Chu Elisha Ding, Ball State University, United States</i>	
Building a Framework for Project Based Personalized Learning	255
<i>Brandie Shatto & Randy Hansen, University of Maryland University College, United States</i>	
Building Digital Learning Culture into Pre-service Teacher Education	261
<i>Ismail Guven, Ankara University Faculty of Educational Sciences, Turkey; Yasemin Gulbahar, Ankara University, Turkey</i>	
Using Digital Tools to Increase Authenticity and Access in Performance-Based Assessment and Project-Based Learning	270
<i>Kristina Doubet & Eric Carbaugh, James Madison University, United States</i>	
Measuring K-12 Computational Thinking Concepts, Practices and Perspectives: An Examination of Current CT Assessments	275
<i>Catherine Adams, Maria Cutumisu & Chang Lu, University of Alberta, Canada</i>	

Girls Who Code: The Importance of Contributing to Their Future	286
<i>Lisa Baylor, Walsh University, United States</i>	
Design and Development of a Graduate Online Course to Prepare Teachers and School Librarians to Lead Computational Thinking in K-12 Contexts	290
<i>Kimberly Huett, University of West Georgia, United States; Bruce Neubauer, Albany State University, United States</i>	
Computational Thinking in Action: Paving the Way for Pre-service Teachers	296
<i>Nadia Jaramillo, Tyanez Jones & Brittany Sweers, Iowa State University, United States</i>	
Infusing Computing Through Professional Development: Shifts in Content Area Teachers' Understandings of Computational Thinking Integration	302
<i>Robin Jocius, Jennifer Albert & Ashley Andrews, The Citadel, United States; Veronica Catete & Yihuan Dong, North Carolina State University, United States; Deepti Joshi & Richard Robinson, The Citadel, United States; Tiffany Barnes & Nicholas Lytle, North Carolina State University, United States</i>	
Children's Perceptions of Participation in Programming Workshop with Their Parents	306
<i>Yukiko Maruyama, Tokai University, Japan</i>	
Examining the difficulties of computational concepts and practices undergraduates encounter in an online learning environment	310
<i>Hyunchang Moon & Jongpil Cheon, Texas Tech University, United States; SunGwan Han, Gyeong-in National University of Education, Korea (South)</i>	
Characteristics and Challenges of Japanese Computer Science Education in Elementary Level	316
<i>Michiyo Oda & Tatsuya Horita, Tohoku University, Japan</i>	
Applications of Computational Thinking to Solve Graph Problems	324
<i>Gerard Rambally, University of North Texas at Dallas, United States</i>	
Infusing Computational Thinking Instruction into Elementary Mathematics and Science: Patterns of Teacher Implementation	330
<i>Kathryn Rich & Aman Yadav, Michigan State University, United States</i>	
A Model for Integrating Computational Thinking into an Undergraduate Preservice Teacher Education Course	335
<i>Kristina Tank & Dennis Culver, Iowa State University, United States</i>	

Discourse Practice of Computational Thinking	341
<i>Sasha Wang & Yu-hui Ching, Boise State University, United States; Steve Swanson, Boise State University, United States; Youngkyun Baek, Dazhi Yang & Bhaskar Chittoori, Boise State University, United States</i>	
Integrating computational thinking in elementary classrooms: Introducing a toolkit to support teachers.	347
<i>Aman Yadav, Rachel Larimore, Kathryn Rich & Christina Schwarz, Michigan State University, United States</i>	
Computational Pedagogical Strategies to Help Learners Retain STEM Content Knowledge	351
<i>Osman Yasar, Peter Veronesi, Jose Maliekal & Leigh Little, State University of New York College at Brockport, United States; John Tillotson, Syracuse University, United States</i>	
Examining the Effects of Digital Fabrication in Middle School: Comparing Gifted and Non-Gifted Students	361
<i>Vince Moore, Breckenridge ISD, United States; Tandra Tyler-Wood, University of North Texas, United States</i>	
Blogs as an Effective Social Media Tool in Education	367
<i>Emad Abu-Shanab, Qatar University, Qatar; Nawzat Alsmadi, Yarmouk University, Jordan</i>	
Using Online Education to Improve Traditional Classroom Instruction: A Blended Learning Approach	374
<i>Catherine Bacos & Karen Grove, University of Nevada, Las Vegas, United States</i>	
Piloting a QM-Inspired Quality Assurance Process for All Online Course Offerings at a Mid-sized University	380
<i>Savilla Banister, Rachel Vannatta & Cindy Ross, Bowling Green State University, United States</i>	
Bringing Open Pedagogy to Practice in a Blended Graduate Course: Affordances and Challenges	386
<i>Eyrim Baran & Dana AlZoubi, Iowa State University, United States</i>	
Accommodating in the Online Course Environment for Students who are Deaf/Hard of Hearing	391
<i>Terence Cavanaugh & Suzanne Ehrlich, University of North Florida, United States</i>	
Nudging, Not Shoving: Five effective strategies for motivation and success for online learners	398
<i>Terence Cavanaugh & Nicholas Eastham, University of North Florida, United States</i>	

Student-Generated Discussion Activity: A Lever for Building a Community of Learners in an Asynchronous Online Learning	405
<i>Beomkyu Choi, Grand Valley State University, United States</i>	
How Do e-Learning Students Perceive Online Synchronous Instruction: A Scaling Tool	410
<i>Christina Churchill, University of North Texas, United States</i>	
Best Practices for Teacher Educators to Address Digital Security Issues in Synchronous Sessions and Webinars	416
<i>Elizabeth Dalton, URI; Dalton Ed Services International, United States; Susie Gronseth, University of Houston, United States</i>	
How can we design online courses that are effective for student learning? (Roundtable)	420
<i>Antoinette Marie Davis, Colorado State University-Global Campus, United States</i>	
Blurring Lines: Using Telepresence for Instructional Equity	431
<i>Veronica Ent, Saint Vincent College, United States</i>	
Big space, small groups: Lessons learned on the development of a small-group learning classroom to meet the needs of both large- and small-enrollment courses	436
<i>Christopher Faulkner, Robert Rege & Dorothy Sendelbach, UT Southwestern Medical Center, United States</i>	
Think You Know What Learners Want in an Online Class? Think Again.	448
<i>Jennifer Graham, Northern Maine Community College, United States; Lynne Manion, Eastern Maine Community College, United States</i>	
A mixed methods research proposal to examine the influence of external factors and expectations on the success of first time online learners.	454
<i>Alexis Guethler, Towson University, United States</i>	
Tools for Seamless Teaching in Online and Hybrid Contexts	460
<i>Amanda Hurlbut & Karen Dunlap, Texas Woman's University, United States</i>	
Exploring Asynchronous Online Learner Experiences and Perceptions	466
<i>Alicia Johnson, Kenneth Potter & Emily Bishop, Virginia Polytechnic Institute and State University, United States</i>	
Maintaining a Competitive Edge: How Trends Drive Innovations for Online Education in Higher Education	473
<i>Hong Lin, University of Oklahoma, United States</i>	

Engagement for Retention: Enhancing the Online Graduate Student Learner Experience Through the Development of a Virtual Community	478
<i>Sharonda Lipscomb, University of North Texas University of Arkansas at Little Rock, United States</i>	
Online Assessment of Instructional Videos: Using Web Conference and a Content Analysis Tool	484
<i>Leping Liu, Li-Ting Chen, Wenzhen Li, Kathryn Hanselman, & Cong Zou, University of Nevada, Reno, United States</i>	
Self-efficacy and Motivation in Online Graduate Students	492
<i>Sari London, Grand Canyon University, United States; Ajay Das, SUNY Empire State College, United States</i>	
Rating effectiveness of instructional delivery: A faculty audit tool used at an online university.	493
<i>Pamela McCoy, Marilee Hall & Debra Chittur, Independence University, United States</i>	
A Fact File of Flexible Learning in Night Programs in Japan	498
<i>Terumi Miyazoe, Tokyo University of Science, Japan</i>	
Supporting Instructors in Redesigning Online Instruction Toward Student-Centered, Problem Based Learning	504
<i>Margaret Niess, Oregon State University, United States</i>	
A micro-learning based model to enhance student teachers' motivation and engagement in blended learning	509
<i>Stavros Nikou, University of Strathclyde, School of Education, Faculty of Humanities & Social Sciences, United Kingdom</i>	
Virtual Mentoring- Creating a National Network of College and Career Ready Leaders	515
<i>Matthew Ohlson, University of North Florida, United States</i>	
MOOCs for language learning. Reality and prospects.	540
<i>Panagiotis Panagiotidis, Aristotle University of Thessaloniki, Greece</i>	
Pedagogical usability in the design of a learning module on virtual reality	547
<i>Minh Pham, University of Missouri, Columbia, United States; Xinhao Xu, Jhon Bueno & Hao He, University of Missouri, United States</i>	
The Impact of Music Genre Preferences on Immediate Recall and Long-Term Memory in e-Learning Modules	552
